

Indiana Registry of Soil Scientists Soil Morphology Evaluation Official Judging

Official judges: _____ Location: _____ Date: _____

There should be two official judges. Read the instructions on the participants form and fill out that form independently. Record which answers in each column are worth one point, which are worth 1/2 point. If judges gave different answers, both answers should be given one point. Judges should also decide which other answers are to be worth one or one-half point; other answers get no points. For numeric answers (% , mm) give a range for one point (e. g. 20 to 40 %) and a range for 1/2 point (e. g., 10 to 19%, and 41 to 50%).
